1 Licence and Requirements

Permission is granted to copy, distribute and/or modify this software under the terms of the L^AT_EX Project Public License (LPPL), version 1.3c or later (<http://www.latex-project.org/lppl.txt>). The software has the status “maintained.”

ENOTEZ needs and loads the following packages: l3kernel [L3Pb], xparse, xtemplate and l3keys2e from the l3packages bundle [L3Pc] and translations [Nie20].

2 Motivation

ENOTEZ is a new implementation of endnotes for L^AT_EX 2_ε since the endnotes package [L3Pa] has some deficiencies. Nested endnotes, for example, are not supported, neither is hyperref [ORT20]. The sepfootnotes package [dLim16] also provides means for endnotes but actually has a different
