

The `fancyhdr` and `extramarks` packages

version v5.2.

Abstract

This document describes how to customize the page layout of your LaTeX documents, i.e., how to change page margins and sizes, headers and footers, and the proper placement of figures and tables (collectively called floats) on the page. This documentation describes version 5.0 or later of the `fancyhdr` and `extramarks` packages. The user documentation is also mostly valid for the versions 4.0 or later of the `fancyhdr` and `extramarks` packages (except for the changes mentioned in sections [38.1](#) and [38.2](#)).

Contents

I	Introduction	3
1	Installation	3
2	Using <code>fancyhdr</code>	3
3	Package <code>fancyhdr</code> options	5
4	Using <code>extramarks</code>	6
II	Page Layout in L^AT_EX	8
5	Introduction	8
6	Page headers and footers	8
7	What is <code>fancyhdr</code>	10
8	Simple use of <code>fancyhdr</code>	11
9	A simple example	11
10	The default layout	12
11	An example of two-sided printing	13
12	Specifying the widths of the header and footer fields	14
13	Fancy Centering	17
14	The <code>\fancyhdrbox</code> command	18
15	Redefining page style <code>plain</code>	23
16	Defining other page styles	24

*Part of this documentation was written by George Grätzer (University of Manitoba) in *Notices Amer. Math. Soc.* Thanks, George!
